

In an effort to simplify the proposal submission process for potential offerors, the solicitation is being clarified to permit offerors to submit proposals for the individual DSCP Regions and/or the "All or None" TRICARE Regions in the same Business Proposal submission.

As long as an offeror's technical proposal satisfies the requirements for all of the DSCP Regions and/or TRICARE Regions for which it is offering, the offeror may combine the offers into a single proposal. The Government still retains the right to award contracts in any combination of DSCP Regions and/or TRICARE Regions, in the Government's best interest.

To accommodate the above clarification, the following changes are hereby made to the **"Solicitation Provisions – Volume 1-Business Proposal Submission – Offeror's Fees/Charges"** section of the solicitation. Text to be removed is indicated in strikethrough text.
